COMPULSORY INSURANCE IN MASSACHUSETTS

The Massachusetts compulsory automobile insurance law has not proved the simple remedy its advocates claimed it would. While it has been solving one problem it has been creating two new problems equally

Special legislative sessions may indicate a political emergency rather than some legislative urgency, but Governor Ely's special call to the Massachusetts' legislature seems to have been motivated for the latter purpose. At least there is need for emergency legislation.

Last year the insurance companies paid \$16,000,000 in losses out of \$21,000,000 in premiums, leaving them \$5,000,000 to meet an \$8,000,000 cost of doing business, for this tremendous loss the legislature is responsible because it fixed the rates for the compulsory insurance.

The rates were fixed by experience under the voluntary insurance system, although it had been foreseen that compulsory insurance would increase the number of bad risks and encourage recklessness. Financially irresponsible drivers became morally irresponsible, accidents increased and claims mounted. Compelled to pay for insurance, the public was compelling the insurance companies to pay.

Governor Ely's program seems to cover everything that can be done. But tacking the demerit system to the present structure of the law, penalizing bad risks, consolidating the automobile insurance departments of the 79 insurance companies under one head and boosting rates will not remove the growing evil of accidents and losses.

WAKE UP YOUR LIVER BILE— WITHOUT CALOMEL

And You'll Jump Out of Bed in the Morning Rarin' to Go

If you feel sour and sunk and the world looks punk, don't swallow a lot of salts, mineral water, oil, laxative candy or chewing gum and expect them to make you suddenly sweet and buoyant and full of sunshine. For they can't do it. They only move the bowels and a mere movement doesn't get at the cause. The reason for your down-and-out feeling is your liver. It should pour out two pounds of liquid bile into your bowels daily.

If this bile is not flowing freely, your food doesn't digest. It just decays in the bowels. Gas bloats up your stomach. You have a thick, bad taste and your breath is foul, skin often breaks out in blemishes. Your head aches and you feel down and out. Your whole

It takes those good, old CARTER'S LITTLE LIVER PILLS to get these two pounds of bile flowing freely and make you feel "up and up." They contain wonderful, hermless, gentle vegetable extracts, amazing when it comes to making the bile flow freely. But don't ask for liver pills. Ask for Carter's Little Liver Pills. Look for the name Carter's Little Liver Pills on the red label. Resent a substitute. 25c at all stores. © 1931 C. M. Co.
